Subject: Product Standards: Copper Fittings – Oxy-Med

Mueller Streamline Co. provides Streamline® brand cleaned Wrot Solder Joint Copper Fittings (Oxy-Med/ Cleaned and Bagged) for medical gas services in accordance with CGA G4.1 (Compressed Gas Association) and meets the scope and intent of specification NFPA 99C.

Parts are cleaned in hot detergent solution to assure adequate cleaning. A hot water rinse is used to remove the cleaning solution and aid in the drying process. Parts are dried with the aid of a blow dryer, which is free of oils. After inspection, parts are sealed in a clear plastic bag and placed in a cardboard box awaiting shipment.

It must be recognized that in spite of the care of precautions exercised in the cleaning, inspection and packaging of these fittings, Mueller Streamline Co. has no control of their handling, storage and installation once they have left our facilities.
