Kamco Division | GREAT LAKES COPPER

EZ-ROLL™
DUCTLESS MINI SPLIT LINE SETS

EZ-Roll™ factory assembled Ductless Mini Splits complement our line of Line Sets to offer a wider selection for air conditioning and refrigeration applications.

EZ Advantages

The advantages of a factory-assembled EZ-Roll™ Ductless Mini Splits include the elimination of on-site sleeving, reducing labor costs of assembling on-site.

EZ-Roll™ Ductless Mini Splits feature a seamless insulation to maximize R value and are provided with forged heavy-duty 45 degree brass fitting for a quick installation.

Cleaned and capped copper tube, ensure cleanliness and eliminate the risk of contaminating replacement or new installations. Available in a wide variety of sizes, lengths and insulation thicknesses, our EZ-Roll™ Ductless Mini Split Line Sets are available with quick delivery times to service your installation requirements.

Insulation Specifications

- ASTM C-534
- UL94/FMRC tested and certified
- NFPA 255/90A/90B
- 25/50 rated to ASTM E-84 (flame and smoke)

Kamco Division | GREAT LAKES COPPER

EZ-ROLL™ DUCTLESS MINI SPLIT LINE SETS FOR AIR CONDITIONING APPLICATIONS

Earning a reputation for industry-leading quality and galvanizing the market with quick service times, the Kamco™ Products Division of Great Lakes Copper Ltd proudly presents our brand of EZ-Roll™ Ductless line sets for air conditioning and refrigeration applications. Starting with the highest quality materials, EZ-Roll™ line sets install with ease and provide our customers with the advantage they require.

EZ-ROLL™ DUCTLESS LINE SETS?

EZ-Roll™ Ductless line sets are available in a number of sizes, lengths and insulation thicknesses to service residential, commercial, industrial or green-compliant split-system installations.

Our copper tubing is manufactured to meet the demands of residential or commercial applications and is suitable for today's brand new, replacement or elevated pressure installations.

Utilizing the heat-conductive properties of copper tube with the intrinsic R value of Elastomeric foam insulation, Kamco™ factory-made line sets provide a one-step solution for air conditioning applications. Factory assembled line sets eliminate the need for on-site sleeving and puts the savings in labor back into your pocket. Ready to install right out of the box, EZ-Roll™ line sets remove the risk of tearing the insulation while sleeving on-site.

	SIZE	INSULATION THICKNESS	LENGTHS (FEET)
SUCTION LINE	3/8" - 5/8"	3/8", 1/2"	15', 20', 25', 30', 35', 40', 45', 50'
	SIZE	**INSULATION THICKNESS**	**LENGTHS (FEET)**
LIQUID LINE	1/4" - 3/8"	3/8", 1/2"	15', 20', 25', 30', 35', 40', 45', 50'

Offered standard with heavy-duty 45 degree forged brass fittings

Factory-assembled sets reduce labor cost, installation time

Seamless insulation provides superior R value and ensures maximum insulation coverage
