“EXCEEDING CUSTOMER EXPECTATIONS”

GREAT LAKES COPPER

A COMPANY OF MUELLER INDUSTRIES

TERMS AND CONDITIONS – PRODUCT INFORMATION

1) Great Lakes Copper Ltd. Third Party Certified Tube is manufactured to meet all requirements of the current revision of the applicable American Society for Testing and Materials (ASTM) specification, including nominal dimensions. Permitted ASTM wall thickness dimensions vary from the nominal dimensions. ASTM dimensions are available upon request.

2) Great Lakes Copper Ltd. is certified by Warnock Hersey to the following specifications: Types K, L and M to ASTM B-88
Type G/GAS tube to ASTM B-837
Type DWV ASTM B-306
Each tube is clearly identified with certifier's monogram
Contact Customer Service department if information regarding certification to a specific ASTM revision is required. TYPE K, L and M plumbing tube is certified to NSF International Standard NSF61.
Seamless Copper Water Tube (Alloy C12200) is certified by NSF to ANSI/NSF Standard 61 for public water supplies meeting or in the process of meeting EPA Lead and Copper Rule (56FR26460, June 7, 1991). Water supplies with PH less than 6.5 may require corrosion control to limit copper solubility in drinking water.

3) Great Lakes Copper Ltd. Regular tube is manufactured to meet the chemical and mechanical properties of the current ASTM specification. General Purpose coils are manufactured to meet the chemical and mechanical properties of ASTM B-75.

ACR straight lengths, medical gas tube and refrigeration coils are manufactured to meet the chemical and mechanical properties of ASTM B-280 or ASTM B-819, regular tube may not fully meet ASTM nominal dimensional requirements.

5) *Payment Terms: Subject to approved credit - Net cash 45 days or 2% discount for payment within 30 days of invoice date.
6) Freight Terms: F.O.B. point of Origin. Freight will be prepaid on single shipments of 7,500 pounds net or more.

7) Return Policy: – Subject to prior approval, material in saleable condition is eligible to be returned to the point of origin. The customer is responsible for freight costs to return the material. Upon receipt, if the material is judged not suitable for sale, the customer has the option of having the material returned, FREIGHT COLLECT, or accepting scrap value for the non- saleable product. Pricing for acceptable material will be the current selling price less 35% restocking charge or the invoice price less 35% restocking charge, whichever is less. Restocking is not available for, Medical Gas and ACR tubing.

8) Minimum order quantity 2,000 pounds – All orders must be in full bundle and box quantities. Orders received with items outside of standard minimum order quantity will be rounded up to closest box or bundle quantity. Changes will be considered final on the order confirmation, unless we are notified otherwise. Box and bundle quantity reference sheets are available through customer service.

9) Contact Customer Service Department for information on freight allowed and pick-up shipment policies. Pick-ups must be arranged in advance and an appointment scheduled.

10) Terms of Sale: All other Great Lakes Copper Ltd. Standard Terms and Conditions apply and are available upon request.

Issued: January 30, 2026
